

Come quickly 6 28 15

Written after the US Supreme Court passed the pride bill. (LGBT BILL)

I am heartbroken, by the effect that sin has but our country wants to turn the other way
and pretend it's ok

I know that this is not the way it was supposed to turn out from the beginning, but has
because of sin

So many people hurting, not knowing where to turn and try to find comfort

The country that was founded on Biblical principles, now has drifted away, a paradigm shift

The laws of the land can change, but it doesn't change your love

We have become too tall in our own eyes, asking for you to shrink us down and wake us up

On our knees, is where you want us, but we are building up our towers

Sometimes we try on our own to buy righteousness, but it is that mentality that got us
where we are

Come quickly Lord, Jesus and take the pain away

Come quickly Lord, and right the wrong

Come soon Lord, and show us what your original plan for this world was before the fall

We need you now more than ever, and I'm asking you to make yourself known to everyone
