

What's next? 2 12 14

Psalm 27:14

New International Version (NIV)

14 Wait for the Lord;
be strong and take heart
and wait for the Lord.

Lot's of times we get ahead of ourselves,
We keep going, pushing to get ahead
No time to slow down, to stop and back off the pedal
Can't we take a minute to look at what God's done for us
There are circumstances that seem less than ideal
There are hopes that seem so elusive like a mirage
Dreams that are followed, and God has different routes to get us there
God knows the big picture, He's got it taken care of
We always are asking what's next, not wanting to wait for the answers
In an instant society where we don't know how take a break
Teach us what it means to slow down and look to you for guidance
To slow down and let you lead us on the path you have for us
Help us see the big picture, and help us to pick up the broken pieces
Help us be ok if waiting is what's next
As we cry out help us, teach us what it means to wait
Help us turn to you and ask you what's next
